Printing At Dmjx

When you need to print at DMJX, it typically happens via a website – so-called web print.

Below you will find links for printing, add money to your account, and an option to get a report of your prints. Additionally, you will find several guides on how to print.

Regarding making very special prints, which are typically done in the graphic education programs in Copenhagen, there is also a guide for that.

Shortcuts For Printing

Site for printing (print, put money on your account) – Click Here >>
